SITUATION SUMMARY

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought
- NOAA/NWS has issued an updated El Nino outlook. The salient points below were received from NWS Western Region.
 - An El Nino event is currently on-going and is strengthening
 - The NWS remains highly confident that this El Nino event will continue through the winter
 - There are several models we use to forecast El Nino events. There is an ever-stronger consensus among these models that this El Nino event will evolve into a strong El Nino event as we move into and through the winter. However, a relative few number of these models are forecasting a weaker El Nino event this winter.
 - As we get closer to the winter, our skill in forecasting El Nino strength improves.
 - El Nino has little-to-no impact on summer temperatures and precipitation.
 - Interestingly, there is a positive correlation between El Nino events and increased tropical cyclone activity in the eastern Pacific.
 - The strongest correlations with enhanced precipitation occur across mainly southern CA during the winter associated with strong El Nino's. There is little-to-no correlation between enhanced precipitation and weak or moderate strength El Nino's.
- It's too early to make any statement regarding the strength of the El Nino and what the winter precipitation will look like. As such, messages regarding conservation should remain in place.

Weather of Concern

- No significant Weather Watches or Warnings are in effect.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Showers and thunderstorms will continue across the northwest California interior through the weekend due to a weakening disturbance sliding across central California. Activity will subside on Monday as the disturbance dissipates.

Medford Weather:

Widespread showers and scattered thunderstorms are forecast for the area today. On Saturday, rain showers and potential thunderstorms will continue until Monday night. A ridge will slowly build across the region resulting in dry weather and near normal temperatures through next week.

Reno Weather:

An upper low will bring another round of showers and thunderstorms, some with heavy rainfall, over eastern California and western Nevada today. A drier southwest flow will set up this weekend with decreasing storm coverage and warming temperatures. Dry weather is expected next week with temperatures warming to around average.

San Francisco Weather:

A few lingering showers will be possible this morning as an upper level low pressure system slowly pulls away from the region. Otherwise, expect dry weather conditions and temperatures near or slightly below average through the weekend.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

More mountain thunderstorms with locally heavy rain forecast today. Local flooding is possible. Showers or thunderstorms will shift to just the northern mountains over the weekend. Dry conditions expected for all areas next week. Temperatures will be below normal into the weekend and then slowly climb to near normal by the middle of next week.

Hanford Weather:

A low pressure system will exit the region this Friday, yet chances of showers and thunderstorms in the high country of the Sierra will continue. Afterward, a dry southwest flow will then prevail over the weekend and into the early part of next week and bring a warming trend and dry conditions to the region.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Onshore flow will weaken through next week as upper level high pressure over the Gulf Coast builds over the region. A warming trend will occur through midweek next week, especially away from the coast.

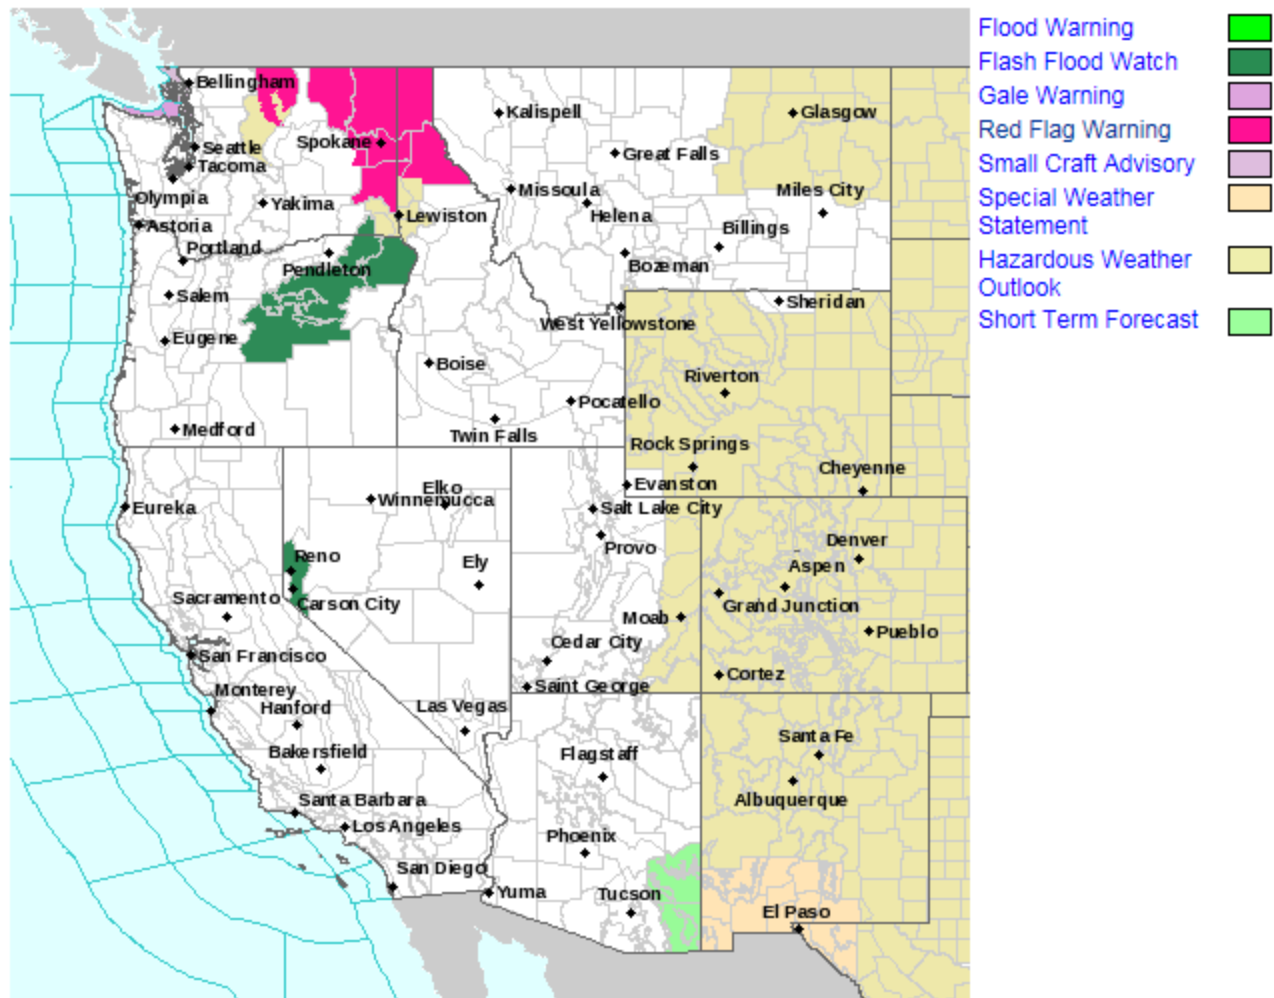

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

A trough of low pressure near the California coast will slowly weaken through the weekend, and then remain well into next week. This will bring inland warming through Monday and a gradually shallower marine layer followed by minor day to day differences next week. Areas of night and morning low clouds and patchy fog will extend onto the lower coastal mountain slopes this morning, and then gradually extend not as far inland, mainly into the western valleys for much of next week.

Southeast California Weather:

A cooler and drier air mass will continue to spread today. Monsoon moisture from Mexico is forecast to return Saturday but persistent drier southwest flow aloft will keep thunderstorm chances confined to higher terrain areas. High temperatures will gradually climb during the period and rise above seasonal normal by early next week.

STATE WEATHER MAP

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Washington, Vegetation Fire, Alpine County (Final per ICS-209)

Location: Near Silver Peak, south of Markleeville, Alpine County

Jurisdiction: Federal DPA, FRA (Humboldt Toiyabe NF, NV-HTF-030251)

Per CAL FIRE and Cal OES Fire Duty Officer, and ICS-209 as of 07/09/15 at 1744 hours:

- 17,790 acres, 99% contained
- Estimated containment date: 07/31/2015
- Resources: 28 personnel assigned

Missions

- **2015-Inland-13708:** Request for (1) Air Monitor to Alpine County.

SITUATION SUMMARY

SOUTHERN OPERATIONS FIRES

Lake, Vegetation Fire, San Bernardino County

Location of Incident: Jenks Lake, Hwy 38, Barton Flats area

Jurisdiction: FRA

Start Time: 06/17/15 at 1600 hours

Per CAL FIRE, Cal OES Duty Officers and ICS-209 as of 07/09/15 at 1840 hours:

- 31,359 acres, 98% contained
- Patrol and monitor, perform suppression repair
- Fire Management Assistance Grant (FMAG) was submitted on 06/18/15 and after review by Cal OES, does not currently meet FMAG criteria and is on hold at this time.
- Resources: 335 personnel assigned

Medical/Health

- Until Further Notice - The Mojave Desert Air Quality Management District has issued a Smoke Advisory for Yucca Valley and Morongo Valley due smoke from the nearby Lake Fire.

Proclamations

- San Bernardino County updated their proclamation of a local emergency with a request for a Governor's proclamation and a Presidential Declaration of a Major Disaster.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Regions (Inland, Coastal, Southern) will consolidate and have one collective OA drought call Monday's at 1100 hours beginning 07/06/15 facilitated by the SOC. Cal OES Director Mark Ghilarducci will hold a statewide OA drought call on 06/29/15 at 1000 hours.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 58 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 25 Counties: El Dorado, Fresno, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 12 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County) and City of Willits (Mendocino County).
- 9 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

Department of Homeland Security Active Shooter Preparedness Workshop July 15, 2015

****THIS IS NOT A TACTICAL TRAINING COURSE****

Overview

The Ventura County Sheriff's Department, Office of Emergency Services and the National Protection and Programs Directorate Office of Infrastructure Protection within the U.S. Department of Homeland Security are hosting a one-day Security Workshop to enhance awareness of, and response to, an active shooter event:

- Educating participants on the history of active shooter events;
- Describing common behavior, conditions, and situations associated with active shooters; and
- Fostering communication between critical infrastructure owners and operators and local emergency response teams. This course includes discussions of interoperability, communications protocols, and best practices for planning, preparedness, and response.

Target Audience

- Corporate and facility security professionals from the private and public sectors;
- Supervisory first responders; and
- Homeland security representatives.

Venue: California State University Channel Islands (C.S.U.C.I.)

1 University Drive
Camarillo, CA 93012
Del Norte Lecture Hall
